YELLOW DOG Launches the New, "yellowdogrecruiting.com"

Minneapolis, MN – Before you let yourself get even more frustrated by the current state of our economy and the employment outlook, you should hear about a new resource available to you.

YELLOW DOG Recruiting, a national recruitment company specializing in the placement of leaders within the restaurant, on-site foodservice and hospitality industries, has launched the latest version of their highly regarded website.

The enhanced website adds features like RSS feeds and video streams, as well as increased content like interview tips and marketplace data.

"We simplified navigation so it's easy to find what you're looking for," said Managing Partner, Scott Rosenberg. "We worked with a design company to better understand the unique needs of candidates today, and tried to use our website as a visual representation of our informal company motto – *easy to do business with.*"

"We listened to candidates and employers, and set forth to create a portal where industry professionals can come and explore news, research, statistics, and reference material all in one place," said Rosenberg.
